

CompTIA CTT+™

How to Prepare for the Classroom Trainer Exam

Classroom Trainer Exam (performance based)

Planning, Preparing & Submitting your recording

All CompTIA CTT+ candidates must successfully complete the CTT+ Essentials exam (computer-based test) prior to submitting a recording for scoring.

Preparing the Classroom Trainer recording for the Performance Based exam

The CompTIA CTT+ program allows considerable flexibility as to the kind of training that is recorded, the way in which it is presented, and the kinds of media or instructional strategies used, so long as the session lets candidates fully demonstrate the required competencies.

Because this is an unedited showcase performance, candidates will need to plan the recording carefully. Filming any 20-minute slice of instruction will not necessarily provide evidence of candidates' ability to perform the required skills.

Outlining the presentation and rehearsing it several times before videotaping will help in creating a successful recording. Another possibility is to video several presentations and select the best, critiquing the performance on the basis of the CompTIA CTT+ Classroom Trainer Performance based Exam Scoring Guide. As candidates critique their performance, they should use the CompTIA CTT+ Scoring Guide to consider how well the recording reflects upon their ability to perform the following required skills.

1. Performing all of the required skills for each competency

Many of the presentation skills described in the objectives are interrelated. Even though candidates will be assessed on each objective, the same behavior could provide evidence for a number of objectives. For a successful recording, it is important that candidates plan a seamless, integrated module rather than one that abruptly switches from one objective to another.

*Remember: Just a statement in the Performance based Exam Documentation Form testifying that candidates involved the learners in group activities in a training segment not shown on the recording cannot substitute for showing the actual interaction.

2. Engaging (not merely talking at) the learners — student-centered learning

The scoring judges are looking not only at how well candidates understand the material but, more importantly, how well candidates help the learners understand the material. If candidates instruct primarily by lecture or demonstration, it is critical to incorporate strategies designed to engage the learners and, at the same time, let candidates know how well they are learning the material.

3. Keeping the learners focused on the subject

The most successful recording includes a brief introduction that tells the learners and the scoring judges what will be covered in the next 20 minutes. To satisfy the requirements for organization and motivation, candidates will need to provide a kind of road map that keeps the instruction—and the learning—on track. The road map can be visual or verbal, obvious or subtle.

Do not feel that you need to rush through a module to reach closure. It may be sufficient to summarize what the learners have covered to that point or better yet ask the learners to recapitulate what they have learned.

4. Providing real training

One question likely to arise concerns authenticity: Should trainers plant certain kinds of behavior or questions within the class so that you can provide evidence of how they respond? The answer is a definitive no. Be assured that the scoring judges are looking for the big picture with each objective.

Classroom Trainer Exam (performance based)

Planning the Performance Based Recording

The CompTIA CTT+ performance based exam provides candidates with the opportunity to showcase their skills in training. Plan the session carefully. Make sure that all the objectives are addressed. Be sure to consider the following when preparing your submission.

Content

Because the CompTIA CTT+ certification is recognized in many industries, it is important for the program to establish and maintain consistent and credible standards. The instructional content of the recording should be clearly professional in nature and be of sufficient complexity to provide the depth and scope for scoring judges to assess the performance adequately in each of the objectives.

Structure

The Performance based examination must show candidates demonstrating all 12 objectives. The instructional module should be complete, with a clear beginning, middle, and end. The module, of course, may be a portion within a longer class, but it should have its own instructional objective(s). If it is part of a larger class, be sure to provide information about how this segment fits into the larger class. **Only one trainer should provide instruction per recording.**

Setting

For the training event, choose a quiet, well-lit site that allows a video camera to record voices clearly and to show media or other instructional materials that candidates use, and that captures candidates' movements, and class interactions.

Class size

A minimum of **five** adult learners **must** appear on the recording. The camera should occasionally pan the room so the scoring judges can confirm the learners' presence and interactions.

Authenticity

The learning situation, to the extent possible, should be authentic. The participants actually should be learning new knowledge and skills. Highly artificial or contrived situations could reduce the instructor's credibility.

Duration

The entire recording should be between 17 and 22 minutes. If shorter than 17 minutes the submission will be rejected while submissions longer than 22 minutes will be accepted, but the scoring judges will not continue watching beyond the first 22 minutes.

Editing

No editing of the recording is allowed. The CompTIA CTT+ program defines **editing** as cutting and splicing of tape. However, candidates may stop and restart the recording **one time** during the recording segment to allow learners sufficient time to practice a new skill. Under very specialized circumstances, a second stop may be accepted. For example, if the class must move locations for a "lab" exercise, a second stop would be permitted. Be sure that enough of the activity is visible before the tape is stopped and resume filming as the practice session comes to a close to show how the transition occurs from one activity to the next. The recorded instruction module **must** be presented in the sequence in which it was given.

Classroom Trainer Exam (performance based)

Skills

The recording and accompanying documentation need to provide clear evidence of the candidate's skills to perform the objectives listed on earlier in this document.

Review

Using the Scoring Guide included in this handbook, view and score the recording before submitting it in for official scoring. Check to make sure that all of the objectives will be evident to the viewer (the scoring judges). Are the learners visible? Are the visual aids clear and visible? Is the picture clear? Is the sound clear?

Submitting the recording

The following are guidelines for submission. The recording must show at least 17 minutes and not significantly more than 22 minutes of instruction. The scoring judges will not watch more than 22 minutes.

There are two options to submit your recording:

Option 1: Online Upload

You may upload your forms and recording at the following site: www.cttsubmission.com

Option 2: Mail/Courier

(Please see below for acceptable media and file formats.)

For this option, please send your recording and documents to:

CTT+ Submission
JTI, Inc.
2568 Precision Drive
Virginia Beach, VA 23454, USA

Please note that starting January 2010, there will be an additional charge of \$70 for recordings that are mailed, to cover the costs of processing, converting and uploading the file.

For South Africa Candidates Only:

The CompTIA South Africa Office provides a service to South African CTT+ candidates only to collect payments at the published ZAR exam fee for the CompTIA CTT+ VBTs. It remains the responsibility of the CTT+ candidate to upload his/her own VBT, although we do have independent service providers that offer this service at an additional fee. Please do not deliver or post VBTs to the CompTIA Johannesburg office.

Please contact Loraine Vorster at the Johannesburg office on (011) 787-4846 or e-mail lvorster@comptia.org for more information.

Other Countries:

JTI, Inc.
2568 Precision Drive
Virginia Beach, VA 23454, USA

Media and file formats:

CD: Windows Media Player Acceptable Format. Recordings submitted on CD must be in MPEG, MPEG4 or FLV formats.

DVD: Recordings submitted on DVD must be supplied on DVD-R (DVD minus R) media. Note: Must be playable on a standalone DVD player or PC with DVD playing software. DVD's cannot be plain media files that require a PC for review. DVD's should be region free or region one (North America). Please note that there will be an additional charge of \$35 for converting your DVD to the preferred formats of MPEG, MPEG4, or FLV.

Equipment

Using the best videotaping equipment will help ensure that the recording turns out well. The training site or school might have video equipment designed for this specific purpose and might be able to provide someone who has good working knowledge of videotaping who can assist with the taping. However, candidates may need to use personal equipment. Many hand-held cameras can produce the quality that is needed.

Classroom Trainer Exam (performance based)

Tips for a Successful Recorded Session

- Use a new, unused video/CD or DVD for this submission.
- Use a tripod. A wobbly recording will distract the viewer.
- Graphics, blackboard writing, etc., should be clear and legible. Writing legible to the human eye may not be legible to the camera's eye. Be careful of glare from chalkboards or white-boards. Use markers on non-glossy paper taped to the board.
- Use only one camera. Positioning the camera at the side of the classroom will enable candidates to capture the learners as well as the candidate.
- If moving the camera during taping, set the zoom lens to its widest setting. This will reduce the shakiness of the picture.
- More light will improve the picture quality. Candidates may want to use a camera light to enhance the quality of the submission. However, do not shoot into the light source. For example, if the blinds are open, shoot with the windows behind the camera.
- Sound presents one of the most difficult issues for videotaping. It may be very difficult to hear the trainer and the learners. What is discernible to the human ear in person may not be so on recording.
- If at all possible, mic the trainer. Otherwise, speaking slightly louder than normal will solve this issue. Test the sensitivity of the microphone by doing a few practice tapings. Instruct class members to speak up. Candidates may want to attach a separate external microphone to help produce better-quality sound.
- Candidates may want to turn off any fans, air conditioners, or laboratory equipment. Candidates may need to sacrifice light from a window source if taping near the windows picks up outside noises, particularly from traffic. Using an external microphone (not the microphone on the camera) will help reduce extraneous noises.
- Make sure that the camera is running before instruction commences. A few seconds' delay in the beginning can cause the loss of important information.

Note: Candidates should always keep a backup of the recording submitted. Although recordings are rarely lost or damaged, it is important that candidates have a backup to submit in the event that loss or damage does occur. **CompTIA will NOT return recorded submissions to candidates.**

Preparing the Performance Based Exam Documentation Form

As a precaution, candidates are advised to make several copies of the Documentation Form C so they can freely plan and revise the answers before writing the final version to submit with their recording. The handbook includes all three required forms for your review. The writable forms may be downloaded separately from the link below. Candidates are able to save it to a PC, and then edit and print it for inclusion with their submission.
<http://certification.comptia.org/getCertified/certifications/ctt.aspx>

Candidates need to ensure they are submitting the correct forms with the recording. For Classroom Trainer recording there are Classroom Trainer forms and similarly for Virtual Classroom Trainer recordings there are Virtual Classroom Trainer forms. The forms for the two exams are different.

Classroom Trainer Exam (performance based)

Quality Control

Evidence suggests that the most successful submissions are of the highest quality. We encourage all candidates to take quality control measures when recording their session.

What if a candidate fails the Performance Based Exam?

Candidates who are unsuccessful in completing the performance requirement can attempt the performance exam again. A candidate's computer-based exam will remain valid so long as the exam content/objectives do not change. Submission requirements for Performance Based Exam retests are the same as for first-time submissions.

If a candidate desires to appeal the scoring of a submitted recording, CompTIA will provide an independent review provided the request is submitted within 30 days of the score report. To request such a review, send a formal request in writing accompanied by a check for \$100 USD. Include in the letter the following information: name, date of submission, score report date and CompTIA Career ID Number/ Candidate ID Number (Number begins with COMP). Please send this information to the same address where your original recording was submitted.

Re-certification

In keeping with the current CompTIA policies, there is no re-certification requirement for the CompTIA CTT+ Classroom Trainer certification.

How are the recordings / Documentation Forms Scored?

Scoring judges are used to evaluate the recordings and the Submission Documentation Forms. Each looks for clear evidence of each objective and awards a score based on the definitions provide in this handbook. They will not be counting the number of times a candidate does something. Instead, they will be judging, overall, how well the candidate performs the set of skills in each objective and how the needs of the specific lesson are met in relationship to the objectives.

Performance on each objective is assessed on a four-point scale:

- 4 — Outstanding
- 3 — Successful
- 2 — Limited
- 1 — Seriously Deficient

The specific criteria that describes how each of the four score points link directly to objective descriptions appear in the Scoring Guide in this handbook.

A score of 1 (seriously deficient) on any of the 12 competencies being assessed on the recording or on the Documentation Form will cause an automatic failure for the performance assessment. Depending upon the outcome from the first scoring judge, your tape may be scored by multiple scoring judges, each viewing and assessing the recording individually and independently of each other.

Who Scores the Recordings and the Documentation Forms?

To qualify as a CompTIA CTT+ scoring judge, the three following requirements must be met:

1. Must be an experienced instructor or professional trainer and must have mastered the CompTIA scoring Calibration Competencies.
2. Must attend CompTIA CTT+ scoring workshops to be thoroughly trained on the standards, and must attend recalibration sessions throughout the year.
3. Must demonstrate ability to score sample CompTIA CTT+ recordings and Documentation Forms accurately and fairly, according to the standards set by the CompTIA CTT+ committee.

As a group, the CompTIA CTT+ scoring judges are ethnically diverse, include both men and women, and have a variety of instructional backgrounds.

Statistical analysts continually monitor the scoring reliability of all the scoring judges. Any scoring judge who is not scoring reliably will receive additional training. However, because of the importance of CompTIA CTT+ certification, if a scoring judge cannot maintain the high-scoring standard required for this program, he or she will not be allowed to continue in the capacity as a CompTIA CTT+ scoring judge.

Performance Based Exam recording Checklist for Quality Control

Before mailing the CompTIA CTT+ Performance Based exam recording, please use the Quality Control Measures checklist below. Remember that this is a certification examination and requires serious planning and preparation. The submission should be a demonstration of candidates' instructional practices presented in a 17 to 22-minute instructional module.

- Use a new, never-before-recorded video cassette or DVD for recording the instructional performance.
- Record several 17 to 22-minute instructional modules and select the one that provides the most effective demonstration of the instructional practices.
- Candidates should view the recorded performance chosen as the Performance based exam submission before mailing it for official scoring, and use the Scoring Guide to score their own performance. As the recording is viewed, ask the following questions:
 1. Are the required objectives clearly evident both audibly and visibly on the recording?
 2. Are the required objectives clearly evident in the Documentation Form?

Recorded submissions are scored within 2 to 3 weeks from the time of their receipt. Please e-mail any questions or comments to: questions@CTTSubmission.com.

Classroom Trainer Exam (performance based)

Retest Policy

CompTIA's Retake Policy has been established to outline conditions under which a candidate may retake a CompTIA certification test.

CompTIA addresses the following in the scope of this document:

1. Retake Policy
 - In the event that a candidate fails a CompTIA certification test
 - In the event that a candidate passes a CompTIA certification test
 - In the event that it is determined that a candidate violated CompTIA's Candidate Conduct Policy
2. Remedies for Violating the Retake Policy

IN THE EVENT THAT A CANDIDATE FAILS A COMPTIA CERTIFICATION TEST - RETAKE POLICY:

In the event that a candidate fails his or her first (1st) attempt to pass any CompTIA certification test, CompTIA does not require any waiting period between the first (1st) and second (2nd) attempt to pass the same CompTIA certification test. However, before any candidate's third (3rd) attempt or any subsequent attempt to pass any CompTIA certification test, such candidate shall be required to wait a period of at least thirty (30) calendar days from the date of such candidate's last attempt to pass such test.

IN THE EVENT THAT A CANDIDATE PASSES A COMPTIA CERTIFICATION TEST - RETAKE

POLICY: In the event that any candidate passes any CompTIA certification test, such candidate shall be required to wait for a period of twelve (12) calendar months before retaking the same CompTIA certification test, unless CompTIA has changed the test objectives for such test.

IN THE EVENT THAT IT IS DETERMINED THAT A CANDIDATE HAS VIOLATED COMPTIA'S CANDIDATE CONDUCT POLICY - RETAKE POLICY:

If it is determined that a candidate has violated CompTIA's Candidate Conduct Policy, such candidate may not be eligible to register and/or schedule any CompTIA certification test for a minimum period of twelve (12) calendar months from the date of such determination, if determined necessary or appropriate by CompTIA based upon the seriousness of the incident or violation.

Remedies for Violating the Retake Policy

Any candidate determined by CompTIA to have violated CompTIA's Retake Policy shall, if determined necessary or appropriate by CompTIA based upon the seriousness of the incident or violation:

- (a) be denied CompTIA certification for the applicable CompTIA certification test for a minimum period of twelve (12) calendar months from the date of such determination;
- (b) have the CompTIA certification for the applicable CompTIA certification test revoked, if such certification was previously granted by CompTIA;
- (c) have all other CompTIA certifications previously granted to such candidate revoked;
- (d) not be eligible to receive any CompTIA certification for a minimum period of twelve (12) calendar months from the date of such determination; and/or
- (e) be subject to any and all other appropriate action, including legal remedies, that CompTIA deems necessary or appropriate to enforce CompTIA's Retake Policy.
